Subject: SRRTTF - Green Chemistry draft budget proposals
Attachments: GreenChem budget proposals.docx; Product Testing budget proposals.docx; Bio-based ice control article.pdf
Importance: High

Hello Everyone.

I apologize for the confusion over this morning's meeting. I called in by the phone, then tried connecting by Skype, then went back to the phone... Unfortunately the system won't let me do both a Skype call and phone call.

Vikki Barthels, Doug Greenlund, and I were the extent of the group. We only discussed possible proposals to put forward to the SRRTTF. Attached below are the write-up of those proposals.

- Green Chemistry Alternative proposals (fyi - Dr. Heine and I discussed the proposal in advance of the meeting, but I haven't gone over the proposal with her yet!)
- Product Testing proposals (I know we aren't the official workgroup for Product Testing, but our group is connected so I thought we could put forth some ideas since we need to make progress on that budget item before June as well.)

If you could look over these proposals ASAP I would appreciate it. I realize it is too late to have them formally discussed at next week's SRRTTF meeting because they needed to be posted by Wednesday, but I would like to get something posted on the website ASAP so we can mention them to the group and show we are working on things!

Please let me know if you have any questions.

Thanks much!
Karin
